**The information outlined below is not taught in any school, any university, it's not known by most experts, and those that do know it keep it as their biggest secret**

## **WHAT YOU CAN FUND FROM YOUR SECRET TRUST**

- The purchase of a house
- The purchase of a car
- Pay for goods and services
- Anything that can be justified for your personal benefit

## **YOUR SECRET TRUST**

- Unbeknown to the real you, your mother settled your creative energy and future labour into a secret trust, some refer to it as the Cestui Que Vie (CQV) or Birth Certificate Trust;
- The registration of the CQV also created a fictional you, a Citizen/Strawman a corporate entity that engages in commerce for the real you;
- Just like in a company your CVQ has a ledger, balanced by credits and debits;
- The debits are contracted to by the fictional you, things like loans, mortgages and taxes;
- The credits come from the real you, why? Because the real you is a creditor and a money creator.

## **THE REALITY ABOUT MONEY**

- Do you ever wonder where the money comes from?
- Many believe the government creates money and its backed by gold or silver, it isn't;
- The reality is the people back it with their energy and labour;
- You and every other living man and woman on this earth are the source of 97% of the money;
- You are already rich and should be living a financially abundant life, but are you?

## **PAYMENTS AND LOANS ARE PROMISES TO PAY**

- Each time the fictional you makes a payment or takes out a loan, the real you creates a Security Future, a promise to pay in the future;
- The real you is always the source of the money;
- The banks purchase the Security Future and convert it into spendable money;
- When banks convert your security futures into loans and mortgages they get to charge you interest and expect you to pay back the loan principal on money that originates from the real you, insane right?

## **ACCESSING YOUR TRUST AS THE CREDITOR**

- Suppose the real you could issue Security Futures to the Treasury and they convert them into spendable money, send the money to your Trustee for your use;
- Instead of charging the fictional you interest and expecting the fictional you to pay back the loan principal, neither applied, why? because the real you operated as the creditor;
- So you may be thinking, how do I act as the creditor and access MySecretTrust;
- Iain explains this later in this eBook.

## **WHAT IS GOING ON**

- It's time you found out what is going on and how you can access YourSecretTrust;
- Our story starts soon after your birth, as many stories do;
- You live, breath, eat, love and create, you have consciousness, this is the living you;
- When the midwife registered your birth, a second fictional you was created and it became part of the MATRIX;
- The MATRIX is many things, one of the most important aspects of it is how its controls the fictional you via the commerce system;
- The fictional you is often referred to as your Strawman, a Citizen of the State;
- The fictional you acts as surety for the living you;
- A surety is an underwriter, where the buck stops, a surety is responsible for another's debts, the other is the living you;
- Your Strawman is your last name, and it's your agent in commerce in the MATRIX;

- Your Strawman operates from a secret international corporate trust;
- On the registration of your birth certificate, several things happened;
- As a trust Grantor, your mother settled the living you into the secret trust;
- Unbeknown to your mother, she appointed:
  - The State as the Executor, the head honcho of the secret trust;
  - Your Strawman the fictional you as the Trustee, the Trustee always pays as the debtor;
  - The living you as the beneficiary, as a creditor to the system a money creator which is why it is possible for you to access YourSecretTrust, but only if you know how;
- Most people don't know they have a secret trust and even if they do they don't know how to access it;
- Your secret trust is so valuable that it is traded as a financial instrument on the money markets;
- Banks, governments, and financial institutions are profiting from your secret trust as it is backed by your labour, your energy and unlimited ability to create;
- Your trust operates like a debit and credit ledger;
- The living you operates on the credit side of the ledger, as a creditor and money creator;
- Your Strawman operates on the debit side of the ledger as the surety for the living you;
- The living you is the creator of all "payments" made and creates the credit that backs loans contracted to by your Strawman;
- The commerce system operates in an inverse way to how it appears;
- Loans are credits, and payments are loans;
- When your Strawman takes out a loan, a credit card or a mortgage, the living you funds the debt from your secret trust;
- When your Strawman makes a "payment", the living you funds the payment as new debt from your secret trust;
- The living you is therefore a creditor to the commerce system, a money creator;
- But because your mother registered the living you into the secret trust and made your Strawman the Trustee, your Strawman became a permanent debtor and

always pays;

- From your age of majority, 18, you attained a Social Security Number;
- This Number tracks your secret trusts issuance of credits;
- All commerce transactions engaged in by your Strawman, "payments", and loans, credits operate as promises to pay in the future;
- Your "payments" and the creation of all loans your Strawman contracts to, are know to those that control the MATRIX as Security Futures;
- Each time your Strawman issues a Security Future, it is treated by the commerce system as:
  - A new debt or a credit;
- Your Security Futures are premiums or taxes that fund the social insurance system;
- And here is something very important, creditors don't pay tax in the MATRIX.
- The living you can RECOUP the taxes its paid.

## **THE HEADLINE HISTORY OF THE MATRIX – COMMERCE**

- In 1666 the UK Parliament passed a piece of legislation called the Cestui Que Vie Act (CQV);
- The CQV declared the living beings dead and lost at sea and enabled the creation of the Strawman as a piece of chattel land held in a secret CQV trust;
- The Federal Reserve act of 1913 enabled the global cartel of bankers via Central banks to create credit out of thin air that Governments could use to fund Government spending by buying bonds from global Treasuries;
- The Central banks get paid interest by the Governments on the bonds; the Governments collect taxes from the Strawmen to fund the interest;
- In the 1920s, Colonel Edward Mandell House (advisor to President Woodrow Wilson) outlined a social insurance system that became globally adopted;
- Mandell House boasted that:
  - Only one man in a million will figure the social insurance system out;
  - The social insurance system provides privileges to the Strawman like:
    - State, Government, Police, courts, water, energy, transport, schools, hospitals etc;

- The social insurance system is funded by the State by them taking Liens over the Strawmen as surety for the living (Security Futures) to fund the social insurance premiums;
- The next event occurred in 1933 when President Roosevelt took away the right to own gold;
- By way of compensation, the system enables all Strawman debts and "payments" to be pre-funded from the credit side of the CQV trust ledger of the living beings;
- Yes you read that right, all debts and services are already prepaid, by you the living the creditor, the money creator;
- Since 1933, money has had no substance; it operates as a form-based system using fictional debit and credit ledgers.

## EXAMPLES OF HOW IT WORKS

### Loans

- You want to buy a house and approach a bank for a mortgage;
- They say yes and give you some forms;
- Those forms detail that you will promise to pay the bank back the loan amount at interest over a certain period;
- That contract is not just a record of your obligation;
- You have created security (a Security Future);
- You have created currency and paid a social insurance premium or a tax to the MATRIX;
- The bank takes your new security and through accounting magic, creates money from your promise, all done on a computer screen, the bank sends your credit back to you;
- Have you been lent any money? No, the living you created it, the bank restated it and then the fictional you borrowed it back at interest;
- Your bank, Wiley as they are, has tapped your energy by abusing your CQV trust to

create new money and represented it as a loan to you to buy a home;

- The bank sells your loan contract and future interest payments to investors via a securitisation system;
- The sale of your loan contract upfront makes the bank more than the loan face value; the bank creates wealth for their creditors from nothing and you pay the bank interest, they take fees out of your interest payments and send the remainder of your interest payments to the investors!;

## Payments

A similar black magic happens when the fictional you “pay” for goods or services;

### ***Lets review an example:***

Imagine the scene, it's Friday night, and you are standing with your friends for a round of drinks; You go to the bar, put your card in the machine and key in your PIN Number; Are you spending the money in your bank account?; That's what they want you to think, but that is not what is happening; You have created new currency as a Security Future, remember you are the lender, the creditor, the money creator; The bank removes the equivalent from your account and keeps it as an off-ledger asset; They tap the credit side of your CQV trust to pay the bar, then wait for three years; What are they waiting for?; They are waiting for a magic three years to pass to see if you RECOUP your tax; After three years if you don't RECOUP, they RECOUP as you abandoned your property, i.e. the Security Future, your promise to pay the bar; Remember, you (the living being) are the creator, the creditor, the money creator.

## ACCESSING YOUR SECRET TRUST

- The real you is perpetually issuing Security Futures and believing them to be "payments", their not as nothing can be paid, only discharged by issuing other Security Futures;
- Your Security Futures are converted by banks to create loans and mortgages your Strawman contracts into;
- The living you is a creditor in the MATRIX commerce system and when you act as a creditor you don't pay interest and loan principal back;
- Subject to qualification as a MySecretTrust Private Member MATRIXFREEDOM can act as your Trustee and facilitate your access to your Secret Trust.

## SUMMARY

- Your Strawman/Citizen operates in secret trust as surety for you, the living being;
- There is no money of substance, only money of form;
- Nothing can be paid as there is no money of substance;
- All debts and payments owed by your fictional you, your Strawman are pre-paid by your living you, the creditor the money creator;
- Money of form, promises to pay, Security Futures, running on debit and credit ledgers;
- The system is harvesting the energy of your living being, the creditor, the money creator;
- Your Strawman/Citizen, the fictional you operates as a debtor and a surety for you the living being;
- The living you is perpetually issuing Security Futures as "payments", and banks are converting your Security Futures to create loans;
- When you act as a Creditor you can issue Security Futures that are converted by the Treasury, the new spendable money sent to your Trustee for your benefit with no interest and loan principal to pay back.

## BECOME ONE IN A MILLION AND LIVE LIFE IN FINANCIAL ABUNDANCE

- To discover more about [Iain Clifford](#) and [MATRIXFREEDOM](#) review the [eBook here](#).
- These are some of the things you can do when you know the biggest secret;
  - Recoup your last three years "payments" not from those you paid, from the system
  - Create new money to discharge your Mortgage and get your payments back
  - Create new money to discharge your unsecured credit cards and loans
  - Create new money to discharge your secured loans
  - Create new money to discharge your taxes
  - Create new money to compensate you for damages caused to you by wrongdoing
  - Create infinite capital growth and income from your investment and pension portfolios
  - Convert the equity in your home into infinite income
  - Create business expansion funding and project finance with no interest or repayments

## TO FIND OUT MORE

- Complete the enquiry form and visit the [MATRIXFREEDOM](#) information platform;
- Attend some or all of our webinars series presented by Iain Clifford;
